Facilities management professionals are responsible for co-ordination and implementation of all tasks relating to planning, designing and managing buildings and its systems, equipment and furniture to enhance an organization's ability to compete in a changing world. In an increasingly competitive economy, organizations need to be able to concentrate on their core business without any distractions. This is why facilities management is one of the fastest growing professional disciplines in Hong Kong.

Our honourable speaker Dr. Peter Kwan, has more than 23 years experience and participated in over 70 numbers of projects from design, construction to maintenance with achievements, will outline a gateway to become a facilities management professionals.

**A list of relevant and professional programmes will be introduced at the same time.**
